EDUCATION

Bachelor of Technology, Computer Science and Business System

Nov 2022 - May 2026

Rajalakshmi Engineering College

- CGPA: 7.21/10

Higher Secondary School

June 2021 - May 2022

Bharathi Matriculation Higher Secondary School

- HSC: 63%

INTERN EXPERIENCE

Human Resource Management, Holograd

- Spearheaded end-to-end recruitment processes, resulting in a 20% improvement in candidate quality and retention through optimized Software Design and Software Development.
- Formulated recruitment strategies that optimized candidate selection, increasing the company's talent acquisition efficiency by 15% using data-driven Software Solutions.
- Revamped HR operations by introducing innovative tools and techniques, reducing the recruitment cycle time by 25% and boosting overall department productivity through automation workflows.
- Monitored recruitment and generated weekly reports to track hiring progress, enabling faster decision-making and reducing delays by 20%.

PROJECTS

PHANTOM-Flow – Adaptive AI-Driven Cyber Threat Analytics Platform

Oct 2025 - Dec 2025

- Analyzed large-scale network, API, and system log data using statistical, behavioral, and time-series methods, improving anomaly detection accuracy by 70% for zero-day attacks and advanced persistent threats.
- Built risk scoring and performance metrics by aggregating multi-engine detection outputs, reducing false positives by 45% through context-aware and time-based threshold optimization.
- Evaluated system effectiveness using precision, recall, detection latency, and behavioral analytics from decoy interaction data, achieving sub-3ms response time and improving analytical reporting efficiency by 50%.

LunaLens – Detection of Boulders, Craters, and Lunar Landslides using Chandrayaan Imagery

Aug 2024 - Oct 2024

- Built LunaLens, an AI-powered geospatial intelligence platform leveraging Chandrayaan imagery to automatically detect craters, boulders, and lunar landslides, improving lunar surface analysis by 70%.
- Deployed deep learning models (YOLOv8, Vision Transformers) with automated preprocessing pipelines, cutting dataset preparation time by 45% and enhancing geological feature identification accuracy.
- Optimized hazard detection and rover navigation planning, aligning with ISRO Chandrayaan missions and advancing scalable lunar exploration analytics.

UrbanFlow – AI-Powered Multimodal Mobility Application

Jun 2025 - Aug 2025

- Developed UrbanFlow, an AI-driven multimodal mobility platform integrating buses, trains, ride-sharing, and walking into optimized end-to-end journeys; improved route efficiency by 32% and reduced average commute times by 21%.
- Implemented real-time traffic and transit monitoring with predictive AI algorithms, providing eco-friendly travel suggestions based on carbon footprint analysis and boosting sustainable commuting adoption.
- Engineered scalable architecture using React Native (Expo) with modular components, enabling cross-platform performance, <1s route recomputation latency, and seamless integration of live transit APIs..

SKILLS

Jul 2024 - Aug 2024

- Soft Skills:** Communication, Creativity, Analytical Thinker, Strong Team Collaboration, Leadership, Consistency
- Programming Languages:** Python
- Development tools:** React, Django, React-native, Flask.
- Database Management:** MySQL, MongoDB, SQLite, Firebase
- Automation Tools:** Oracle, n8n, Workato, UiPath
- DevOps & Developer Tools:** Linux, Git, Github and Gitlab, Docker, Power Bi, Kali linux
- Cyber Security tools:** Splunk, Nmap, Metasploit, Wireshark, Virusotal, Nessus, Snort

ADDITIONAL INFORMATION

- Languages:** English(Fluent), Tamil(Fluent), Telugu(Proficiency)
- Certifications:** Big Data Computing, Industry 4.0 and Industrial Internet of Things, Pre-Security, Cyber Security 101, Soc analyst, UiPath Academy Automation Explorer Training, DB programming with SQL.
- Awards/Activities:** Finalist of the Bharatiya Antaroksh 2025 (Aug 2025), Runner-up in Smart India Hackathon-internal hackathon (Dec 2024), Coordinated a Hackathon IdeaForge in College (Oct 2024), Finalist of the Hackemeggedon Hackathon (Aug 2024), Finalist of the Hackfest 2024 (Jan 2024), Finalist of the Happyfox Hackathon 2024 (Feb 2025)
